“All workbooks contain first-rate knowledge and understanding... It is rare to see candidate support material of such high quality”

Testimonial:

I chose to study my diploma in management consultancy through Blueprint, and I am now qualified thanks to the excellent support from my tutor.

From the start Blueprint was very quick to send me through all my study material, and very soon after they arrived I received a call from my tutor to talk me through my studies. She offered on-going support and made me feel as though I could pass all of the assignments, despite the long period of time since I had last studied.

I can honestly say that it was the motivation provided by my tutor that saw me through to passing the diploma, and she was a huge source of encouragement for me. The feedback on all of the assignments was constructive, and always given to me very quickly after submission.

Without a doubt if I were to consider studying in the future I would use Blueprint based on the quality of the material and the quality of the tutors. Thank you Blueprint for all of your support.
